The data provided for employment and doctoral admissions are self-reported on our surveys that we send. Our response rate is low and it is based on how many respondents. Please see the outcome data report on our website for additional context. In addition, in NJ, school counselors do not have to take an exam for certification, but we do require both programs to take the CPCE Comprehensive Exam for our program. Finally, we collect student data in the fall and spring semesters, but not all students complete this request. Therefore the demographic information provided is based on student report and does not represent all enrolled students.

REMINDER: Student Outcomes (CACREP 2024 Standard 2.E.2) must be made publicly available on your program's website. The information to be posted includes the following four data points regarding each of your accredited specialized practice area: (a) number of graduates in the past year, (b) degree completion rate, (c) licensure or certification examination pass rate, and (d) combined employment and doctoral admissions rate of students/graduates.

Once your 2025-2026 data has been posted, send the website URL to cacrep@cacrep.org.
