The course module is located in the far right column of the initial page of the Bb site, but in many cases an ad is positioned on top of it. Generally faculty and students want to see their courses rather than an ad. After reading this document you'll be able to highlight your courses by moving the ad module.

1. Place your cursor over the header bar of the course module

2. Left-click and hold,

3. Drag the ad module out of the way
