

Office of Sponsored Programs

The OSP provides assistance and support to faculty who seek external or contract support from state, federal, and public, private or corporate foundations. Pre-award consultation, post-award services, and assistance with compliance are available. OSP offers a regular, on-line database of potential funding sources, a weekly electronic newsletter (via Outlook) that provides up-to-date information on grants and deadlines, a reference list, and training opportunities for grant writing and management (in-house and off-campus workshops).
