

Assigned Released Time (ART)

Faculty may apply annually for ART, which provides from 3-6 credits of teaching-load released time to pursue research/scholarly projects. Applications are reviewed by the departmental chair and the college dean before being sent to a university-wide ART committee who recommends an award based on a statement of the project, proposed activities, a statement of significance, and a budget. A copy of recent scholarly publications, a vita, and recent ART projects, should there be any, must also be included
