

David and Lorraine Cheng Library

The Cheng library provides on-line and in person support for teaching and research and assigns a liaison to each College annually. Reference assistance, remote access to library resources, interlibrary loan, reciprocal borrowing agreements, VALE, photocopying, reserves (in-house and electronic), and short courses (orientations, Database searching, Refworks) are available to support teaching and research. Additionally, the COE has a reciprocal relationship with the Curriculum Materials Center, supporting the acquisition of materials that support teaching and learning in the College of Education.
