

Will Power 101 Module

Achieving Academic Success: Module Description and Requirements

Description

This module is designed to help you develop the skills necessary to achieve academic success and develop your long-term academic goals. This module will provide you with strategies for success through in person and online workshops, PowerPoint presentations and video lectures. Upon completion of the series, you will answer some Final Reflection Questions to finish the module.

Requirements

You must select three workshop presentations, one video, and a tutoring session to complete the module. You must complete all four selections and the Final Reflection survey Qualtrics survey in order to get credit for the module. Submit your survey results to you Will. Power. 101 Facilitator to receive credit for the module.

Tutoring sessions are a required activity for all first year students.
