OCTOBER 24, 2024
9:30 – 3:15 PM

This year the conference will explore the theme of “Student Well-Being.” Topics include mental health, challenges of social media and technologies, the urgencies of climate change, gender-affirming care, educational inequities, and the criminal justice system. We have invited speakers to address the above issues and foster a discussion broadly on youth rights and the urgent need for more awareness, services, collaboration, advocacy, leadership, and support.
