

1-Year Online Provisional Adult & Pediatric First Aid, CPR/AED Training

This course is designed for students who need a certification that satisfies OSHA requirements but are unable to take an in-person skill session at this time.

Upon completion of the online class, students will receive a 1-year Provisional Red Cross certification.

Within one year of completing the provisional online course, you must register for and complete the hands-on skill session, in order to extend the certification for a second year.
