2016 Faculty Showcase - Call for Proposals

17th Annual NJEDge Faculty Showcase
"STEM to STEAM"

Call for Proposals

<u>Deadline is February 5, 2016</u>

<u>Showcase date is March 23, 2016</u>

Before you go on winter break, please send your proposal to the Stem to Steam @ Stevens faculty showcase.

Happy Holidays from NJEDge.Net!

The showcase features dynamic presentations and posters on technology-mediated instruction. This is an excellent arena for NJEDge members, faculty, researchers and professional staff to present on the newest applications and latest ideas about learning activities for on-ground and online courses.

Each presentation is 25 minutes in length; ideal for showing works-in-progress, student/faculty projects, or leading-edge research. Poster presentation is effective because it allows participants to discuss informally their work with colleagues. At the faculty showcase there is a designated slot for poster sessions. There is a poster contest where the winner gets an all paid pass to the annual conference which includes hotel stay.
