Description:

University Research and Scholarship Day 2013 will provide the University community with an opportunity to show off our scholarly and creative activities. Presenters will include faculty, students, librarians and professional staff who have undertaken research or special initiatives on their own or with support from the ART or Research & Travel Incentive programs, support from one of the colleges or another University program, or who have received grants, contracts or fellowships.

Research and Scholarship Day will feature individual and group oral presentations, posters, art, films, performances and special sessions organized by each of the University's Colleges, as well as the Cross Cultural Arts Festival: Northern / Eastern Asia.

Prospective presenters are encouraged to include/invite graduate and undergraduate students to participate on their own or as part of your presentation, and to invite their classes to attend full sessions of presentations.
