## Caregiver Kits

**URGENT**

equip home-based caregivers  
caring for their loved ones who  
are suffering from Ebola

# CREATE EBOLA CARE KITS

*Provide medications and protective supplies for those caring for victims of Ebola*

Many people affected by the Ebola outbreak lack some of the most basic supplies to care for the sick, while keeping themselves safe. You can help equip them with the practical resources they need to help those who are suffering while also helping to prevent the spread of deadly infection.

### EACH KIT INCLUDES:

- Latex gloves
- Face masks
- Face shield
- Protective gown
- Information about disease control
- Handwritten note of encouragement

...and much more!
