

## Hide Course Shells

### Learning Objective:

After reading this document students and faculty will be able to customize their Blackboard shell to display only courses that are currently relevant.

1. Using the Google Chrome web browser\* left-click the gear-shaped icon [1] in the upper right corner of the course list displayed on the Blackboard tabs titled either *WPUNJ* or *Courses*. Note that editing one course list does not affect the other.

2. On the ensuing interface unclick the boxes associated with the courses you need to hide [2], then click Submit [3].
