

## Alternate Route Clinical Practice I Journal Expectations and Prompts

Journaling has a critical role to play as you move through your clinical practice. Journaling provides opportunities for you to reflect on the contextual factors of the school, and your understanding of the occurrences that you observe; it is not a repository for minute-to-minute recording of incidents. Further, journaling promotes your ability to reflect on your experiences in and out of the P – 12 classroom, and to share your impressions of the events in which you engage with faculty who are entrusted with your guidance and supervision.

### Journal Expectations

**Timeliness:** Teacher candidate submits weekly journal entries as requested without reminders.

**Critical Thinking:** Teacher candidate responds to journal prompts with substantial information demonstrating 1) application of knowledge, 2) connections between experience and content taught in preparation program.

**Substantive Entry:** Teacher candidate submits organized and logically sequenced journal and reflection responses. The entry contains detailed information, connections and reflections of experience.

**Writing:** Teacher candidate communicates effectively in writing using correct grammar, punctuation and spelling.

**Reflection:** Teacher candidate deeply reflects on his/her own practice with evidence of analysis, synthesis or evaluation. Provides detailed examples and makes connections between practice, research and theory.

### Instructions:

1. Use the weekly template, linked below, to respond to the journal and reflection writing prompt.
2. Save (Save As) your journal entry in a location where you will be able to retrieve it for submission and reference.
3. E-mail your weekly journal entry as an attachment to your clinical supervisor. Submit your journal entries as requested by your seminar instructor.
4. Write your journal entry using academic language. Proof read your work.

### Remember:

Do not use student, teacher or other staff names in any journal entry. The journal is used to build an understanding of community, school and classroom factors; and to provide an opportunity to reflect on your professional practice and observations. It is not appropriate to pass judgement.

Each journal and reflection prompt supports candidates' growth in the COE Competencies and edTPA and are tagged with the competency(s) and/or tasks to which they are aligned.
