Dear Jyoti, Paul, Cyril, Weihua, Djanna, and Venkat:

The Provost and I want to congratulate on your \$1,000,000.00 grant from the National Science Foundation for your project, *Mathematics and Computer Science Scholarships*.

This project will provide Mathematics and Computer Science Scholarships to high-achieving undergraduates with demonstrated financial need. William Paterson University is proud of your contribution toward increased enrollment, retention efforts, and the academic success of our students through STEM degree completion.

Shortly, Martin Williams, Director of the Office of Sponsored Programs, will forward to you information on the University's guidelines for administering grants and contracts and on funding agency reporting requirements. Martin will also notify the Business Services Office and the Public Information Office about your grant. Please contact him if you have any questions about the terms and conditions of the grant, problems with administration of your project, or for assistance or support with other aspects of the project.

Again, congratulations. I am looking forward to following the project as it develops and grows.

Sincerely,

Sandra Hill
Associate Provost for Academic Affairs

C: M. Williams
