Fee: $750
Course: J103

Successful managers know the importance of building strong relationships with their team members. This certificate equips both new and experienced managers with the skills and resources necessary to foster strong connections, lead change, and resolve potential conflicts. Whether operating in an in-person office environment or a remote work setting, managers will learn practical ways to better coach and motivate their teams. Through interactive exercises, videos, self-assessments, and case studies, the self-paced courses included in this certificate provide opportunities to practice and apply key management skills. Upon successful completion of all courses in this certificate program, you can download and print a Certificate of Completion.

Times: Online
Fee: $699
Course: ME-242

Leaders and managers are often called upon to deal with the challenging impacts of change, to work through disputes with partners and customers, and to resolve conflict within the organization. This Certificate in Managing Change and Resolving Conflict covers the key issues and best practices for managers dealing with contentious situations in the workplace. Each of the seven courses in this suite offer examples, videos from practitioners and experts, interactive games, and review questions to ensure mastery of the material. The courses present strategies that managers can use to help deal with conflict, with case studies and scenarios that highlight key issues.

**Certificate in Managing Change and Resolving Conflict**

- Leading and Managing Change
- Handling Difficult Employee Behavior
- Communicating Collaboratively
- Handling Workplace Conflict
- Emotional Intelligence for Managers
- Negotiations: Resolving Disputes
- Introduction to Managing Change and Resolving Conflict

Times: Online
Fee: $630
Course: ME-240
Certificate in Negotiation
10 Hours
Open Registration

This online certificate program helps learners develop the skills and strategies needed to become a successful negotiator. The fundamental concepts of negotiation are addressed, as well as the application of these concepts to the specific areas of Deal Making Negotiation and Dispute Settlement Negotiation. Video commentary provides learners with practical insights on translating the principles of negotiation into real-world bargaining success. Each 3- to 4-hour, self-paced course offers an assortment of interactive exercises, videos, readings, case studies, and self-assessments that will keep learners engaged as they sharpen their negotiating skills.

• Introduction to Negotiations
• Negotiations: Making Business Deals
• Negotiations: Resolving Disputes

Times: Online
Fee: $199
Course: ME-241

Certificate in Leadership
20 Hours
Open Registration

What is leadership and why is it important? How does a leader encourage change without triggering fearful resistance? What are the key elements to leading an effective team? What is the role of charisma in leadership? How can a leader achieve work-life balance? This suite of courses addresses all these questions and many more. The courses in this suite offer advice on leadership that can help you stand out as a leader among your peers. Video segments introduce successful leaders who discuss such issues as how leaders become leaders, leadership ethics, and the differences between leaders, managers, and administrators.

• Leaders and Work-Life Balance
• Leading and Managing Change
• Leading Teams
• Introduction to Leadership
• Body Language for Leaders

Certificate in Finance Essentials
19 Hours
Open Registration

This online certificate program introduces non-financial managers to the essentials of finance. The courses will help you become conversant in critical financial terminology, and you’ll learn how to calculate key financial management indicators. You will learn how to assess your organization’s financial health by reviewing balance sheets, income statements, and statements of cash flow, and you will discover how finance and accounting tools can be used to support informed decision making within organizations.

Times: Online
Fee: $399
Course: ME-207

Certificate in Non-Profit Management
44 Hours
Open Registration

This online certificate program introduces learners to key current management issues for nonprofit organizations. Fundraising, board and volunteer development, budgeting, reading financial statements, leadership, marketing, and setting strategic direction are all addressed, and video commentary on these crucial topics will provide insight into how nonprofit professionals apply key concepts in their own organizations.

- Budgeting in a Nonprofit Organization Online
- Capital Campaigns Online
- Fundraising for Nonprofit Organizations Online
- How to read a nonprofit financial statement Online
- Introduction to Grant Writing Online
- Introduction to Nonprofit management Online
- Nonprofit Board and Volunteer development Online
- Principles of Marketing for Nonprofit organizations Online
- Social Media for nonprofit Online
- Strategy for nonprofit organizations Online

Non-Profit Management

Intro to Grant Writing
5 Hours
Open Registration

Writing grants is often a critical part of gaining funding for any nonprofit organization's mission. Strategic grant writing aligns the needs of a nonprofit with funding sources, whether foundations, government agencies, corporations, or individuals. This introductory-level course offers a guide to the basics of grant writing. The course explores the relationship between grant writing and an organization's strategy for fundraising. It also outlines the six stages of grant writing and highlights grant writing best practices.

Times: Online
Fee: $150
Course: ME-268

Advanced Grant Writing
6 Hours
Open Registration

Pushing your grant writing skills to the next level is an exercise in focusing on the details. This course shows you how to ask iterative questions of yourself, your team, and your proposed program in order to sharpen and refine your grant proposal and push it to the top of the pack. By looking closely at how a logic model can shore up your proposal at each key stage, this course will demonstrate how to push your planning, evaluation, and budgeting from good to great.

Times: Online
Fee: $159

Digital/Web for Business

Digital Graphic Design
50 Hours
Open Registration

Updated for Adobe Creative Cloud, this course has been redesigned and enhanced to meet the requirement of today’s digital designer. We cover the fundamental elements of graphic/ web design using the latest versions of the most in-demand software programs in the digital design industry today – Photoshop, Illustrator and InDesign. In addition, the course now includes WordPress for the rapid development of webpages. Students will learn to use Photoshop for image preparation and Illustrator to create original graphics and stylized text for both print and digital media. We then bring these visual elements together using InDesign to structure page content/ layout for printing and electronic distribution. This is an introductory course and no experience with Adobe Creative Cloud is required.

Times: Online
Fee: $1,125
Course: T015D
Certificate in Digital Marketing

30 Hours
Open Registration

The content in this certificate aligns with the Online Marketing Certified Associate (OMCA) credential, which is offered by OMCP. Digital marketing helps organizations promote and sell products and services through online marketing methods such as social media messaging, website ads, Facebook marketing campaigns, Google Adwords, and more. It's vital to develop a marketing strategy that keeps up with the technology. This Certificate in Digital Marketing covers the strategic issues, marketing methods and tactics, industry terminology, and best practices. Each of the nine courses in this suite offer examples, videos from industry-leading practitioners, interactive games, and review questions to ensure mastery of the material.

- Social Media Marketing
- Content Marketing
- Search Engine Optimization
- Web Analytics
- Paid Search (PPC)
- Conversion Rate Optimization
- Mobile Marketing
- Digital Marketing Strategy

Test Preps

Financial Planning

Certified Financial Planning Program

Financial planning jobs have grown and are expected to continue to grow in the upcoming years. The retirement of baby boomers, growing entitlements, longer life spans, and lower yields have created a need for Certified Financial Planning. The core personal financial courses are required by the CFP exam - an important step in establishing your professional credentials.

Courses Available:

- Taxation I: B031
- Investment Analysis/Planning: B033
- Retirement Planning: B034
- Insurance Analysis/Planning: B035
- Financial Planning Capstone: B036

Fee: $949 per course (textbooks are not included)

For more information about our Certified Financial Planning Program courses, including course dates and times, please contact Nolan Yamashiro at 973-720-3698 or via email at yamashiron@wpunj.edu.
Medical Assistant/Multi-Skilled Healthcare Professional

330 Hours
10/24/2022 - 1/20/23 - Days
10/24/2022 - 2/03/23 - Evenings Only
2/6/2023 - 5/5/2023 - Days

This course encompasses topics such as interpersonal relationships, legal aspects of Allied Health, the language of medicine, clinical office procedures, anatomy and physiology, aseptic medical techniques, and laboratory specimen Collections. You will also be trained in first aid, CPR, pharmacology and hematology, electro cardiology (EKG), medical data entry and billing, and phlebotomy techniques. This program includes a mandatory 160-hour externship. Students will take the Medical Assistant Certification exam through the American Medical Certification Association upon completion of the program.

Times: Mon, Tues, Weds, Thu, Fri
Fee: $3025
Course: H005B

Phlebotomy – 50 Hours
9/10 - 11/12/22 | 2/4 - 4/8/23 | 4/22 - 6/24/23

The phlebotomist is a vital member of the clinical laboratory team, whose main function is to obtain patient’s blood specimens by venipuncture and micro collection for testing purposes. The demand for phlebotomy technicians has increased substantially with the overall complexity of healthcare services and the risks of infectious disease. Experts predict a 22% increase (much faster than average) in phlebotomy jobs by 2030. The Phlebotomy Technician Program prepares professionals to collect blood and other specimens from clients for the purpose of laboratory analysis.

This course covers the following key areas and topics:
- Process and procedures for collecting blood specimens for laboratory analysis
- All aspects of blood collection and related procedures
- The order of draw
- Universal precautions
- Skills to perform venipunctures completely and safely
- Terminology and related Anatomy and Physiology

A Management Guide to Blockchain

3 Hours
Open Registration

Blockchain is on the forefront of emerging technologies and is the foundation of modern cryptocurrencies. If you’re a manager with little exposure to Blockchain as a concept, this course will help you build an understanding of the concepts and how the technology might apply to your business. This course is an introduction to Blockchain as an underlying technology for cryptocurrencies and other applications. The assignments delve into critical parts of Blockchain, such as consensus mechanisms and cryptography. They also look at Blockchain’s impact on verticals such as healthcare, Fintech, and government, along with democracy, governance, and social impact.

Times: Online
Fee: $99
Course: ME-185

A Management Guide to Artificial Intelligence

3 Hours
Open Registration

This course introduces learners to basic artificial intelligence concepts and trends. Artificial Intelligence plays an increasingly important role in many industries. The emergence of this new technology promises to bring unprecedented efficiencies for organizations and enhance business performance. In today’s global economy, managers will need to know how AI can be leveraged to keep their organizations competitive, as well as understand the potential ethical issues associated with employing AI technologies such as deep learning, machine learning, and the various AI-enabled recognition technologies.

Times: Online
Fee: $99
Course: ME-186
COMPTIA A+ Certifications
Open Registration

Whether you are looking for the industry standard in Security, Networks, or a beginner IT worker, these fully online COMPTIA courses will prepare you for a rich IT career from the comfort of your home!

Earning CompTIA A+ Certification means that an individual possesses the knowledge, skills and customer service skills necessary to be a successful computer service technician offering a nationally-recognized and industry-recognized credential for new entrants into the field.

Times: Online  
Fee: $1299

Certificate in Cybersecurity
40 Hours
Open Registration

Cybersecurity, also known as Information Security, is the protection of data and personally identifiable information from malicious attacks, theft, and destruction. Failures of cybersecurity policies, both in large corporations and governmental agencies, have earned significant visibility and negative publicity in recent months and years. As the amount of data being stored continues to increase, and as hackers become more sophisticated, the need for cybersecurity is greater than ever.

Courses included in this Certificate:
• Communication and Network Security  
• Asset Security  
• Security and Risk Management  
• Security Engineering  
• Identity and Access Management  
• Security Assessment and Testing  
• Security Operations  
• Software Development Security

Times: Online  
Fee: $499  
Course: ME-143

COMPTIA S+ & N+ Certifications
Open Registration

Earning CompTIA S+ Certification signifies to employers that candidates will apply their knowledge of security concepts, tools, and procedures to prevent security breaches, react accordingly to any security incidents and anticipate further security risks to effectively guard against them.

Earning CompTIA N+ Certification means that the individual possesses the knowledge and skills necessary to be a successful network professional offering a nationally recognized and industry-recognized credential for experienced network technicians.

Times: Online  
Fee: $1299  
Course: C028

Certificate of Web Design
18 Hours
Open Registration

This suite of courses will teach you the skills you'll need to build a website of your own. Building a website involves a lot more than just writing code. Before you start on that, you need to understand what you want your website to do, how it will look, who you want it to reach, and what message it should send. The first five courses in the suite will introduce you to the basics of designing a functional and attractive site, the HTML and CSS languages you'll need to execute your design, and best practices for designing and building a website that responds intelligently to the needs of users.

Times: Online  
Fee: $399  
Course: ME-177

Intro to Microsoft PowerPoint
10 Hours
Open Registration

10/24-11/2/22 | 3/6-3/15/23

Motion Graphics Using Adobe After Effects
10 Hours
1/10-1/19/23
Learn the skills needed to create exciting visual effects and motion graphics with Adobe After Effects. Topics: layers, keyframes, masking, animating text, and export digital video to various file formats. This course also covers the seamless integration of Creative Cloud by bringing Photoshop documents and original Illustrator artwork into After Effects to create animation sequences.
Times: Tues, Thurs | 5:30 pm – 7:00 pm
Fee: $699
Course: T178

Digital Graphic Design Using Adobe Photoshop, Illustrator & InDesign
40 Hours
Digital Graphic Design Using Adobe Photoshop, Illustrator & InDesign Updated for Adobe Creative Cloud, and this course has been re-designed and enhanced to meet the requirements of today’s digital designer. We cover the fundamental elements of graphic/web design using the latest versions of the most in-demand software programs in the digital design industry today - Photoshop, Illustrator, and InDesign. Students will learn to use Photoshop for image preparation and Illustrator to create original graphics and stylized text for both print and digital media. We then bring these visual elements together using InDesign to structure page content/layout for printing and electronic distribution. This is an introductory course and no experience with Adobe Creative Cloud is required.
Photoshop
Learn the fundamentals of this digital image manipulation software application. Strengthen your business communication skills by creating graphics for print and a variety of digital media. You will learn Photoshop tools and options, design composite images, make photo corrections, control layers, apply transparency, masking, type, blend modes, layer styles, filters, and optimize images to match the right media.

Illustrator
Illustrator artwork appears everywhere, and its power and complexity can be mastered by learning a few key concepts. Training begins with learning basic vector drawing, coloring, and editing; it then advances to transparency, typography, path tools, image trace, special effects and much more.

InDesign
Learn InDesign to design powerful page layouts for both print and digital media. Students explore the fundamentals of InDesign to control document content, layout, working with text and type styles, placing images, managing color, using transparency, and export options.

Times: Tues, Thurs | 5:30 pm – 7:00 pm

Certificate in Agile Project Management
19 Hours
Open Registration

Agile project management practices have become the standard for software development projects. More recently, Agile has grown beyond software projects as more and more companies adopt Agile concepts and methodologies. Individuals who have a solid understanding of Agile have a distinct advantage in today's changing project management atmosphere.

The courses included in this certificate program will provide managers the foundation they need to become competent Agile practitioners. The program introduces the learner to the basic methodologies, practices, and key concepts of Agile and enables the learner to explore, through case studies, many of the common challenges of working on an Agile team.

- Introduction to Agile
- Integrating Agile into a Waterfall Environment
- Challenges for Agile Teams

Certificate in Small Business Management

30 Hours
Open Registration

Owning or managing a small business has a lot of benefits. Small business owners may have the freedom to control their schedules, be able to focus on work that they find fulfilling and find opportunities to positively impact their communities. But in addition to benefits like these, small business management brings with it some unique challenges. Owners of small businesses often play many roles and must have a wide body of knowledge. In a single day, a small business owner may be required to do any number of varied tasks, like approve a project plan budget, train a new employee, and develop a marketing campaign. This certificate will provide students with a fundamental understanding of the most critical areas in small business management.

- Accounting Fundamentals for Small Business
- Introduction to Small Business Management
- Small Business Marketing
- Budgeting and Financial Analysis for Small Businesses
- Law for Small Business
- Project Management for Small Business
- HR Fundamentals for Small Business
- Leading and Managing Small Businesses

Introduction to Emergency Management in the US

10 Hours
Open Registration

Emergency management is a critical and expanding field; climate change has increased the extent and frequency of natural disasters, and terrorism is a growing threat. Therefore, emergency managers play an increasingly vital role across the whole community and all levels of government. This course is designed for learners who are studying emergency management for the first time, preparing for a new career or job role in emergency management, or seeking to refresh their knowledge of foundational concepts.

- Define emergency management, explain the principles of emergency management, and recognize the various roles and responsibilities of emergency managers
- Identify the laws, authorities, and structures that shape and define emergency management in the U.S.
- Explain the purpose of an emergency operations center (EOC) and describe how and when to activate the EOC
- Recognize the components of a successful emergency management program, including financial planning, resource management, and exercise program management
- Describe the components of a mitigation plan and recognize how mitigation actions can prevent emergencies or minimize the resulting damages
- Identify the six steps of planning and outline an emergency operations plan
- Distinguish between the various types of training and exercises
- Recognize the key partners in response and their various roles and responsibilities, such as communicating with the public, saving lives, and clearing debris
- Explain the purpose and goal of recovery and identify the short-term and long-term activities that facilitate recovery
- Outline the steps in the Presidential Disaster Declaration process and identify the various kinds of assistance available to emergency.

The 3 R's of Cannabis: Rewards, Risks, and Research

2 Hours
Open Registration

This on-demand, self-paced course, provides an overview for the busy non-specialist who wants to be better informed about Cannabis. This course is being taught by Dr. Bruce J. Diamond who is a clinical and research neuropsychologist with experience in conducting clinical trials and in teaching psychopharmacology. Dr. Linda M. Graves is a physician with clinical and research experience in a broad range of medical areas. Where feasible, definitions are provided for terms that may not be familiar. The course provides an introduction to multiple areas within the Cannabis field including: history, therapeutics and adverse effects, underlying mechanisms, medical applications, and regulatory issues. The goal is to provide a foundational experience for future advanced courses for individuals representing a wide range of professions and interests, but, for whom Cannabis, is an area of interest professionally and/or personally.

At the end of this course, you'll be able to:
- Discuss the history of cannabis
- Identify established therapeutic applications
- Identify potential adverse effects
- Describe underlying mechanisms
- Describe medical applications
- Discuss regulatory issues and approved medical use

The Biz Startup Bootcamp

For those clients that want to start a business and do it the right way. The bootcamp is offered six times per year, is live (remote) and held twice per week in the evenings for eight weeks. The experience is designed to secure each client in the fundamentals of starting a business, starting with a job, and a pathway to building their business properly. Successful completion includes a mini-stackable credential from NAEBL, access to federally sponsored programming, and connection to supplemental resources.

- The Incremental Growth Strategy & Starting a Business Right
- Starting with Your Target Customer
- Identifying Opportunity (unsolved problem or unmet need of Target Customer)
- Clear and Feasible Products and Services
- Unique Value Proposition (UVP)
- Assumptions & Testing
- Milestones of Your Business Launch (Incremental Growth Strategy Planning)
- Sales & Marketing Plan
- Asset Creation

The Sole Proprietorship Bootcamp

For clients with transportation, childcare, and other limitation and for those that are embarking on a new career or career change, the Sole Proprietor Bootcamp™ is a powerful experience designed to offer immediate impact and pathways that enrich the clients’ lives. Offered six times per year, it is live (remote) and held twice per week in the evenings for four weeks. The experience is designed to help secure immediate income, build skills, build alignment (can I be good or great and like or love this?), and ultimately lead to a full time (remote if needed) employment (and in select cases, businesses that employ others). Successful completion includes a mini-stackable credential from NAEBL, access to federally sponsored programming, and connection to supplemental resources.

- Gig Platforms vs. Freelance
- The Gig Economy
- Primary Types of Gig Work
- Power of the Gig Economy
- Going from Gigs to Freelance
- Fundamentals of Freelance Work
- The Incremental Growth Strategy & Using Sole Proprietorship to Gain Full-Time Employment or Evolve into a Business that Employs Others

The 21st Century Entrepreneurship Workshop

A Live (remote) workshop that reveals how the professional world really works, builds understanding around the single greatest driver of success (adding value!) and delivers precise strategies and tools to unleash your value in the workplace and beyond. The combined six (6) program hours deliver in practical, powerful, and real-life terms. The experience is designed to help participants shift mindset, take extreme ownership, and build a career that endures and grows through adding maximum value. Successful completion includes a base mini-stackable credential from the National Association of Entrepreneurship and Business Leadership (NAEBL).

- Modern Economy and the Six Modalities of Earning
- The Real Driver of Success (VALUE)
- Your Role in the Economy, to Add Value (in any of the Six Modalities)
- The Four Dimensions of Value
- How to Deliver Value in the Workplace (Jobs)
- How to Delivery Value in the Gig & Freelance Economy
- The Fundamentals of Business Startup & How to Get Started
- The Incremental Growth Strategy & Modern Economy Career Navigation
