

Welcome back! Suddenly, it's busy time again. The Library is full of people, and that's the way we like it. We just wanted to remind you that although the Library is a place, it's much more about the people here. Did you know that each librarian is assigned one or more academic departments? The librarian works with the department to select materials and make sure the collection meets the needs of students and faculty alike. The librarians also teach library orientation and research classes. Feel free to contact a librarian directly to set up a one-on-one consultation!

This semester, Cheng Chat will once again present a library-themed series of articles meant to not only show off what we offer at the David and Lorraine Cheng Library, but to help make the library an important and integral part of your experience at William Paterson University. As always, we want to hear from you about how we can make the library better – for you!
