

10th ANNUAL UNDERGRADUATE RESEARCH SYMPOSIUM

Saturday, April 9th 2016

You are cordially invited to the 10th Annual Undergraduate Research Symposium in the Biological and Chemical Sciences at William Paterson University in Wayne, NJ. This annual Symposium provides an excellent forum for undergraduate researchers to present their original work at a regional meeting. Posters are invited in the following areas of research:

Physiology, Cell & Molecular Biology, Genetics and Ecology & Evolution

Organic Chemistry, Biochemistry, Nano Chemistry, General & Physical Chemistry and Materials Chemistry

Posters will be Judged by a panel of attending Mentors and awards will be presented to the best undergraduate poster presenters. Participant Abstracts will be published in a Symposium Proceedings. For more information and free registration log into:

www.wpunj.edu/cosh/departments/biology/urs/

or
