

Explorations

The background is a complex digital collage. It features a lush green forest scene with a stone path leading upwards. Overlaid on this are several key elements: a computer monitor displaying a 3D software interface with a red cube, a blue sphere, and a yellow cone; a stylized character with a red and blue body and large red eyes; a large white arrow pointing downwards in the lower-left; a blue and white globe-like structure; and various other geometric shapes like a red ring and a purple cube. The overall aesthetic is a blend of nature and digital technology.

Dear William Paterson University Community,

With a year gone by and our university community busy at work researching, writing, and creating, it is now time again to pause and celebrate our university authors and producers of creative expressions for the year 2025. This continues our tradition of honoring those whose scholarly and creative works enrich the intellectual life of our university and enhance its reputation as an institution of excellence within higher education. The 11 books, 11 book chapters, some 131 refereed journal articles, and 7 conference proceedings in this volume showcase the scholarly and creative activities of 85 William Paterson University faculty and staff. It is an admirable performance and productivity we should be proud of.

On behalf of the David and Lorraine Cheng Library, I congratulate and applaud our authors and creators for the great example they set with their works and the inspiration they provide their students and colleagues through their pursuits. They buttress our reputation as an academic institution and for that we are all grateful.

I would also like to take the occasion to thank our President, Dr. Richard Helldobler, and Senior Vice President for Academic Affairs and Provost, Dr. Joshua Powers, for their continued and unwavering support of our authors and creators, and for their unflinching commitment to research, scholarship, and creative expression at William Paterson University.

Sincerely,

Edward Owusu-Ansah, Ph.D.
Dean of Library Services
David and Lorraine Cheng Library
