

The [WW Teaching Fellowship](#)'s most successful Fellows have found us through recommendations from trusted sources like you. To ensure that students in high-need schools in Philadelphia and Pittsburgh have access to quality STEM learning experiences, please consider passing this email along to gifted candidates with strong STEM backgrounds. These schools need prepared, creative teachers now more than ever.

The WW Teaching Fellowship program equips those with excellent content area knowledge with extensive preparation through a cutting-edge M.Ed. so they can rise to any challenge they might face in a classroom.

Interested candidates can start an application [here](#). If you'd like to schedule an info session, contact our Admissions Counselor Neema Ndiba at [ndiba@citizensandscholars.org](mailto:ndiba@citizensandscholars.org)

Thank you for supporting our efforts to close the achievement gap and ensure quality STEM education is available to all students

Best,  
Martina
