

What Works Conference: Repurposing, Rethinking and Reaffirming Equity and Access

To learn about and amplify what works
for student success

Sponsored by Academic Affairs, Enrollment Management, and Student Development

Conference Schedule at a Glance

Conference Program: [Program Link](#)

Building on last year's successful conference, *What Works: Getting to Know Our Students' Stories*, our 2022 What Works theme is: ***Repurposing, Rethinking and Reaffirming Equity and Access.***

What works in terms of promoting student equity and access?
How can we repurpose, rethink and reaffirm our commitments to equity and our strategies for ensuring access for all of our students?

When is it? Monday, December 12, 8:50 a.m.-4:15 p.m. Online. [Calendar at Glance](#)
All sessions are online.

Why are we doing it? We want to put student well-being at the center of our thinking. What strengths do students bring to our campus? What can we do to meet them where they are and enable them to excel? Let's share practices that are working and have the potential for scalability.

Join us and hear what your colleagues have assessed to work!
