

Annual Report 2023-24

Graduate Policy and Standards Council

Graduate Probation and Dismissal Policy

Approved by the Faculty Senate after revision based on Senate feedback

The G-MMS Statistical and Methodological Support Program

Multiple Honors Nursing students were provided with statistical support and recommendations.

The Graduate Forum 2024

The Forum received very positive feedback and requests for copies of the Powerpoints. BJ Diamond presented briefly and Robert Laud presented along with Jonathan Lincoln, Stuart Goldstein, Christine Diehl, Yuri Marder and Provost Powers

Mentoring

The G-MMS program initiated a hybrid Mentoring session on “Forensics and Criminology”: Five students attended in person and six students attended online. Dr. Jemour Maddux from the Department of Psychology and Doctoral students Avianne Smith-Cordice and Brittany Juncosa from our Doctoral Program in Psychology shared their knowledge and experience with our students. The students reported that the Mentoring session was helpful and provided them with useful information.

Neuropsychological Assessment Program

The Chair of the Graduate Policy and Standards Council will be meeting with the Directors of the Counseling, Health and Wellness Center and ARC to discuss strategies for developing the G-MMS’s Neuropsychological Assessment program. This program would serve all of our students and especially those who need accommodations.
