    - i. President Helldobler sent an email regarding a recent Zoom bombing incident on campus. Campus Activities was hosting a leadership academy for students. About 12 were in attendance and random students joined and more than half way through the meeting and wrote disgusting comments in the group chat. It was reported in IT and the University released statements on how to prevent more bombings. A student club experienced this back in October and reported the incident after reading the President's email. For events on Pioneerlife, it's recommended to make all events

private so students will have to log into Pioneerlife to view Zoom links for events. Also put in waiting rooms to filter those in attendance. Eboard thought of creating a backup Zoom link in case a Senate meeting is ever interrupted.
