X. Old Business: N/A

XI. New Business:

- A. Shawn shared information from the Campus Climate report. It focused on how students feel a sense of belonging on campus. The university is doing super well with making LatinX students feel belonged. A lot of White and Asian students felt neutral but some White students felt they did not feel a sense of belonging. 25-50% of Black students did not feel a sense of belonging on campus probably due to the campus climate from the past few years. The President is taking steps to find ways to make Black students feel more welcome on campus. The university is working on creating a LatinX center on campus. The CDI is adding a tab to their webpage to help transgender students with changing their names.
