# **“IN THE PURSUIT OF MODELING HUMAN DISEASE IN MICE”**

**by Santhi Gorantla, PhD**

**Professor, University of Nebraska Medical Center**

Dr. Gorantla’s research focuses on the development of mouse models for human-specific infections to study pathogenesis and therapeutics. Currently, she is involved in several collaborative projects employing humanized mouse models to study HIV pathology and therapeutic development for HIV eradication, HIV end-organ diseases, and other human-specific infectious diseases.

**TUESDAY | OCTOBER 10, 2023  
12:30 PM | SCIENCE HALL WEST 301**

All WPU students are welcome. Lunch will be provided.
