Hunziker Black Box Theater

Technical Specifications

Phone: 973-720-2384

The space is a flexible, black box type theater with black curtains on three sides. There is a box office window by the entrance to the theater. The control booth for stage management, lighting and sound, is located at the front of the theater, accessible from the entrance foyer.

ROOM DIMENSIONS: See BBT Theater ground plan.

49'-6" X 30'-9" (Curtains open.)

48'-0" X 25'-0" (Curtains closed.)

HOUSE: Capacity is 60 -80 depending upon configuration. See BBT Seating suggestions.

A Wenger platform system, with interchangeable legs, is used to create the audience/stage environment. Leg heights are: 8", 16", 24" and 32". (There are not enough legs to leg all platforms to any one height.)

DRESSING ROOMS AND GREENROOM: See BBT Complex ground plan.

- There are two dressing rooms - One is big enough for 4-6, the other 5-7 comfortably.
- The greenroom is equipped with a refrigerator and microwave as well as a sink.
- Greenroom and dressing rooms are equipped with an audio monitor from the stage.
- Restrooms are located in the lobby immediately adjacent to the backstage entrance and are shared with the audience.

MISCELLANEOUS:

- There are two heavy-duty wooden ladders, and a medium sized fiberglass ladder, that can be used to reach the lighting grid.
- There are three small step ladders.
- There is one old scaffold unit that is primarily used for hanging lights.
- There are nearby classrooms that may be available for rehearsal rooms. Call for details.
- Stage crew is a combination of trained students and freelance professionals.
- See BBT Rules and Regulations for other policies.

LIGHTING: See BBT Lighting Grid ground plan.

The theatre is equipped with a basic 4' X 4' grid at 14'-0" above the deck. Raceway circuiting is above the grid. Unused lighting equipment should remain on grid.

- **House Lights:** Must be included in lighting plot. Minimum one dimmer/circuit required. Overhead works are non-dimmable LED strips; switch is in the foyer.
- **Dimmers:** 48 - 2.4kw dimmers/circuits. (Rack is backstage in hallway.)
- **Control:** ETC Element II console, located in main control room.

- **3-pin Twist-Lock Cable:** 6- 50'; 10-25'; 15-15'; 15-10' and 20-5'. (32) two-fers.
- **Adapters:** 5 female Edison to twist lock; 8 male Edison to twist lock; and a variety of other adapters.
- **Instrument Inventory:**
